

IF YOU KNEW ME BETTER

© 2016 Bob Sima Music, *It's Time*, Released 5 February 2016

If you knew me better, if you knew where I'd been
If you'd seen half of what these eyes have seen
If you heard the voice I hear keeping me up at night
Maybe you'd understand, maybe you'd recognize

That the face you see is the best I got
Sometimes it takes all of me to give a little piece of my heart
This isn't an apology or a reason why
But if you knew me better you'd see I'm a lot like you on the inside

If you could taste the tears, feel the burn of the lies that have crossed my lips
Touch all the close calls that have slipped right through my fingertips
If you could have rode along with me on my boulevard of dreams
You'd have seen them flash before my eyes and die right in front of me

And the face you see is the best I got
Sometimes it takes all of me to give a little piece of my heart
This isn't an apology or a reason why
But if you knew me better you'd see I'm a lot like you on the inside, on the inside

Maybe you wouldn't write me off or turn your cheek
You wouldn't question my motives or judge my beliefs
You wouldn't drop your bombs on me or try to make me disappear
And if you knew me better, how much better off all of us would be

If you knew me better, if you knew me better

Well we wouldn't need borders and we wouldn't need wars
And we wouldn't need guns and we wouldn't need bombs no more

If you knew me better

If you knew me better, if you knew where I've been
If you'd seen half of what these eyes have seen
If you heard the voice I hear beating me up at night
Maybe you'd understand, maybe you'd recognize

That the face you see is the best I got
Sometimes it takes all of me to give a little piece of my heart
This isn't an apology or a reason why
But if you knew me better you'd see I'm a lot like you on the inside
On the inside
