

## IT'S TIME

© 2016 Bob Sima Music, *It's Time*, Released 5 February 2016

It's time, it's time, it's time, it's time, it's time  
It's time, it's time, it's time, it's time, it's time

It's another day under the same sun, it's another day to lean in and claim some  
It's another day to be bold, brave and unafraid  
It's another chance to change direction, move the arrow, a course correction  
Be an instrument, be the change or move out of the way

So if your glass is half empty then fill it, If it's overflowing then spill it  
Over the mouths that thirst and the souls that hurt, spill it spill it spill it

Because we need your heart, we need it open wide  
We need your brilliantly beaming glowing and knowing goodness from inside  
We need your beautiful smile and we need it right now  
Because you're the light of the world, the light of the world and it's time you figured it out

It's time, it's time, it's time, it's time, it's time, it's time

You're the answer's perfect timing and there ain't no use in hiding  
This blinding shining diamond you've been disguising  
You're the universe in ecstatic motion, you're the elixir, the magic potion  
For a world that cries for what's behind your eyes

So if your glass is half empty then fill it, If it's overflowing then spill it  
Over the mouths that thirst and the souls that hurt, spill it spill it spill it

Because we need your heart, we need it open wide  
We need your brilliantly beaming glowing and knowing goodness from inside  
We need your beautiful smile and we need it right now  
Because you're the light of the world, the light of the world and it's time you figured it out

It's time, it's time, it's time, it's time, it's time, it's time, it's time

It's time to be true, to be the beautiful you, to let your soul smile through your eyes  
Because your one little light can light ten thousand more and together we will, together we will  
It's time, it's time, it's time, it's time, it's time

There's a celebration in the streets, brothers and sisters finally meet  
All of these orphans under the same sun, same sky  
There's a glow on the horizon, Shiva calling, Shakti rising  
And there are so many signs, so many signs, signs, signs, signs

And we need your heart, we need it open wide  
We need your brilliantly beaming glowing and knowing goodness from inside  
We need your beautiful smile, and we need it right now  
Because you're the light of the world, the light of the world and it's time you figured it out

It's time, it's time, it's time, it's time, it's time
