

## RIGHT IN FRONT OF YOU

© 2015 Bob Sima Music, *It's Time*, Released 5 February 2016

Every day is reason to celebrate out loud  
Every sunrise is a sacred invitation to bow down  
Every single ray of the sun it shines just for you  
How could it be anything but a miracle, tell me won't you, tell me won't you

Like a snowflake melting in your hand, the ticking of the tock and the grain of sand  
Live it like it's right in front of, right in front of, right in front of you  
Live it like it's right in front of, right in front of, right in front of you

You're moving fast at twice the speed of here and now  
You're running from moment to moment, the present can't chase you down  
You're living in the screens, yesterday's pain and tomorrow's dreams  
You're a multi-tasker, taking-for-granter, missing the message of the magic in between

Like a snowflake melting in your hand, the ticking of the tock and the grain of sand  
Live it like it's right in front of, right in front of, right in front of you  
Live it like it's right in front of, right in front of you, right in front of you

Look it in the eye, take it by the hand  
Put your feet back on the ground, let it do its dance  
It's a sacred romance

Every day is reason to celebrate out loud  
Every sunrise is a sacred invitation to bow down  
Every single ray of the sun it shines for you  
How could it be anything but a miracle, tell me won't you, tell me won't you

Live it like it's right in front of, right in front of, right in front of you  
Live it like it's right in front of, right in front of you, right in front of you  
Live it like it's right in front of, right in front of, right in front of you  
Live it like it's right in front of, right in front of you, right in front of you
